

**THE HUB OF YOUR BUSINESS**

# The ideal hospitality business terminals

**V-R7000 / V-R7100**  
Android-based

# Key Features

V-R7000 / V-R7100

## Cloud Suite software

Provides managers and back of house staff with vital information about the running of the business e.g. sales data, stock reports, customer information.

## Adaptable

Applications for multi-site management are available. The Casio solution grows with your business.

## Easy to operate

Simple to use 15.6 inch widescreen LCD touch panel, enabling staff to work quickly and effectively.

## Robust

Super reliability supports daily 24/7 front of house operation. IP53 rating for water and dust resistance means the touch panel screen can be operated even with wet hands.

## Reliability

A quick return to operation after power interruptions means you're always ready to go.

## Stylish design

The slim and sophisticated design will fit well with any interior scheme.

## Bars

Fast service in a bar can mean the difference between making a satisfied customer or not, affecting their likelihood to return. The Casio EPOS system's **easy-to-use-interface** means your staff will be able to quickly search for and register items. Customers will see the benefits, as they are served efficiently and accurately. Large groups can **create tabs**, making for smooth payment at the end of the session. Another great feature is the **automatic prompt** for food orders to require a **table identifier**. This helps make sure your waiting staff and customers are happy, as the food gets to the right place at the right time – simple but effective.

## Restaurants

Casio's EPOS solution has an **automated table plan**, which can open automatically when you sign on. This innovative system shows you instantly whether the table is occupied. There is also **instant production of the bill**, avoiding a long wait when the customers are ready to leave. This efficiency keeps both the staff and more importantly the customer satisfied. **Seamless kitchen/customer communication** is available with prompts for things such as how a customer wants their steak cooked. Easy-to-use, clever features like these can help to give your restaurant the edge.

## Fast Food & Coffee Outlets

Speed and accuracy are vital for management, staff and most important of all, the customer. Casio's **upselling prompt system** and speedier order processing mean that those profit targets are a little closer. Making sure the customers get what they order is easy, as **straightforward item selection** and on-screen updates mean that orders can be read back to make sure they are correct. Eating in or Taking Out? Simple to select options mean that complicated tax transactions are as easy as a tap on the screen. **Fast, efficient service** with a clear bill featuring the right items at the right tax rate – that's sure to keep everyone coming back for more.

V-R7000 and V-R7100 EPOS solutions deliver real business advantage. They provide a scalable system that delivers fast, efficient front of house service and integrates seamlessly with the Casio Cloud Suite. Discover how Casio can benefit you and your business.

## Options/Accessories
