

THE HUB OF YOUR BUSINESS

The Ideal Retail Business Terminals

V-R7000 / V-R7100

Android-based

Key Features

V-R7000 / V-R7100

Cloud Suite software

Provides managers and back of house staff with vital information about the running of the business e.g. sales data, stock reports, customer information.

Adaptable

Applications for multi-store management are available. The Casio solution grows with your business.

Easy to operate

Simple to use 15.6 inch widescreen LCD touch panel, enabling staff to work quickly and effectively.

Robust

Super reliability supports daily 24/7 front of house operation. IP53 rating for water and dust resistance means the touch panel screen can be operated even with wet hands.

Reliability

A quick return to operation after power interruptions means you're always ready to go.

Stylish design

The slim and sophisticated design will fit well with any retail interior scheme.

Making it easy for the store manager

When it comes to multi-tasking, store managers are the experts. Having to fit business management, customer service, HR

tasks and shop management into the working day requires excellent juggling skills. Store managers will find it easy to run the store efficiently as the V-R7000 is like an extra pair of hands. Daily tasks such as **pricing control** and **cashing up** have never been so quick, or accurate.

Making it easier for the customer

Increasing footfall through the store is every store owner's key objective, and with fierce competition in the marketplace it is becoming an ever harder objective to meet. Casio EPOS solutions enable **price promotions** such as 2-for-1, allowing local stores to compete with the larger retailers. Catching the consumer's eye with bargains on their favourite products will make it easy for them to choose to shop locally.

Making it easy for reporting

One of the key features of the V-R7000 and V-R7100 EPOS terminals is the reporting functionality offered. This provides the store manager access to crucial information about their business including: **staff security, product management and sales reporting**. With this information it will be easy to identify potential areas for growth and profit maximisation. A **scalable system** means it's easy to find the right solution for any business size.

Making it easy for store staff

With the V-R7000 and V-R7100 EPOS terminals store staff will find it easier to keep customers happy. Time intensive tasks are reduced with the efficiency of the systems. **Barcode scanning** of products at POS make the cash desk experience much quicker for the store staff and customers. Casio EPOS systems are secure, accurate and easy to use, maximising your store's efficiency and reducing queues in busy periods.
